Why is SSBG important to New Jersey?

Child Abuse and Neglect

In 2017, New Jersey had 57,026 total referrals for child abuse and neglect. All of the reports were referred for investigation.

In 2017, there were 6,698 victims of abuse or neglect in New Jersey.

Case Management

The federal Child and Family Service Reviews have clearly demonstrated that the more time a caseworker spends with a child and family, the better the outcomes for those children and families.

SSBG2016 funding will provide case management services to over 170,000 children.

Family Planning Services

New Jersey provides comprehensive reproductive services to low-income, underinsured, and uninsured individuals. The program prevents and reduces clients from future dependency and promotes self-sufficiency. The services are focused on preventative care throughout a client's reproductive years.

SSBG funding will provide services to over 99,000 adults.

Health related and home health services are those in-home or out-of-home services or activities designed to assist individuals and families to attain and maintain a favorable condition of health.

Home-delivered meals are those services or activities designed to prepare and deliver one or more meals a day to an individual's residence in order to prevent institutionalization, malnutrition, and feelings of isolation.
