In 2017, Rhode Island distributed $74,058,172 in child support funds, an increase of 6.6% from 2013.24

67,000 children in Rhode Island lived in households with a high housing burden in 2016, where more than 32% of monthly income is spent on housing costs.25

In December of 2018, the unemployment rate in Rhode Island was 3.9. 26

12.1% of households in Rhode Island were food insecure on average from 2014 to 2016, meaning that the family experienced difficulty providing enough food due to lack of resources at some point during the year.27

HEALTH AND SUBSTANCE ABUSE

139,469 children in Rhode Island were enrolled in Medicaid in 2017, an increase of 0.04% from 2016.32

In 2017, Rhode Island had 27,433 children enrolled in its State Children’s Health Insurance Program, an increase of 24.3% from 2016, when 36,262 children were enrolled.33

In 2017, Rhode Island had 7,784 uninsured children.34

858 babies were born weighing less than 2,500 grams in Rhode Island in 2016.35

62 infants under age 1 died in Rhode Island in 2016.36

In 2017, the birth rate for teens ages 15 to 17 in Rhode Island was 5.2 births per 1,000 girls. The rate was 17.6 for teens ages 18 to 19. This reflects a total rate of 13 births for girls ages 15 to 19.37

Cumulative through 2017, there were 3,193 adults and adolescents and 29 children younger than 13 reported as having HIV/AIDS in Rhode Island.38
• In 2017, an estimated 2,000 children ages 12 to 17 were alcohol dependent in the past year and 60,000 adults age 18 and older were dependent on alcohol or used heroin in the past year in Rhode Island.39

• In 2017, approximately 2,000 children ages 12 to 17 needed but had not received treatment for alcohol use in the past year.40

• In 2017, approximately 3,000 children ages 12 to 17 needed but had not received treatment for illicit drug use in the past year.41

• In 2015, health care costs related to opioid abuse in Rhode Island reached $108,354,005.64

VULNERABLE YOUTH

• 144 children in Rhode Island aged out of out-of-home care—exited foster care to emancipation—in 2016.42

• 83.2% of high school students in Rhode Island graduated on time at the end of the 2014-15 year.43

• 2,000 teens ages 16 to 19 in Rhode Island were not enrolled in school and not working in 2016.44

• 9,000 young adults ages 18 to 24 were not enrolled in school, were not working, and had no degree beyond high school in 2016.45

• 38% of young adults in Rhode Island ages 25 to 34 had a bachelor’s degree or higher from 2015 to 2017.46

• In 2017, there were no reports of children in Rhode Island aged 10 to 14 committing suicide, and no reports of suicide among children aged 15 to 19.47

JUVENILE JUSTICE AND DELINQUENCY PREVENTION

• Less than 10 children under age 19 were killed by a firearm in Rhode Island in 2017, compared to less than 10 in 2016.48
2,218 children younger than 18 were arrested in Rhode Island in 2017. Violent crimes were the reason for 109 of the arrests in 2017.†

198 children lived in juvenile correction facilities in Rhode Island in 2015.‡

**CHILD WELFARE WORKFORCE**

*The federal Child and Family Service Reviews have clearly demonstrated that the more time a caseworker spends with a child and family, the better the outcomes for those children and families.*§

According to a 2003 GAO report, the average caseload for child welfare/foster care caseworkers is 24–31 children; these high caseloads contribute to high worker turnover and insufficient services being provided to children and families. CWLA recommends that foster care caseworkers have caseloads of 12–15 children.∥

Average turnover rates for child welfare agencies range from 20% to 40%. Turnover rates at around 10% are considered to be optimal in any agency.¶

*Caseworker turnover has negative outcomes for children in the child welfare system, including placement disruptions and increased time in out-of-home care.*

According to the National Survey of Child and Adolescent Well-Being II baseline report, 75% of caseworkers earned a salary between $30,000 and $49,999.}

The majority of caseworkers hold a bachelor’s degree (52.3%) or a Bachelor of Social Work degree (21.9%). Only 25% of caseworkers hold a master’s degree.

**SOCIAL SERVICES BLOCK GRANT**

In 2016, Rhode Island’s sum of expenditures for services totaled $6,369,960. The most utilized service in Rhode Island was Case Management totaling $1,926,657.
FUNDING CHILD WELFARE SERVICES FOR RHODE ISLAND’S CHILDREN

- In 2016, Rhode Island spent $191,108,538 for child welfare services. Child welfare services are all direct and administrative services the state agency provides to children and families. Of this amount, $60,650,079 was from federal funds and $130,458,459 was from state and local funds.\(^1\)

- In 2016, of the $60,650,079 in federal funds received for child welfare, 31.1% was from Title IV-E Foster Care and Adoption Assistance, 2.3% came from Title IV-B Child Welfare Services and Promoting Safe and Stable Families, 41% was from Medicaid, 0% came from Social Services Block Grant, 19% was from TANF, and 6.7% came from other federal sources.\(^2\)

- Rhode Island received $18,870,236 in federal funds for IV-E foster care expenditures in 2016, including $3,763,057 for maintenance payments and $6,907,107 for administration, child placement, the statewide automated child welfare information system, and training.\(^3\)

Note: The percent difference is a CWLA calculation.

Note: The percent differences are CWLA calculations.

Note: The percentages are a CWLA calculation.

Note: Some states allow families, once they begin receiving assistance, to continue receiving assistance up to a higher income level than the initial limit.

30 Ibid.

Note: A family that is eligible for child care assistance may not necessarily receive it. States may place families on waiting lists, or freeze intake (turning away eligible families without adding them to a waiting list).

Note: The percent difference is a CWLA calculation.

Note: The percent difference is a CWLA calculation. Children who switched between CHIP and Medicaid are represented in both data sets.

51 Note: The dearth in current state-by-state workforce data makes clear the need for critical data on compensation, working conditions including safety issues, academic degrees held, education and training received, and factors contributing to turnover. To address this, CWLA is calling for Congress to authorize the National Academy of Sciences (NAS) to conduct an updated study on the child welfare workforce. It would make recommendations regarding caseloads and workloads, education levels, and training requirements. In addition, the study would examine data reporting and collection and make recommendations on how states might improve these efforts.

58 Ibid.

Note: Examples of direct services include child abuse/neglect investigations, foster care, community-based programs, case management, and all such services required for the safety, permanency, and well-being of children. Examples of administrative services include management information systems, training programs, eligibility determination processes, and all services that provide the infrastructure supports for the public agency. The component funding streams may not equal the total, depending on additional child support and demonstration funds for this state.
